Subject index

Adsorbates
Chronocoulometric studies of irreversibly reduced adsorbates (Ribes, Osteryoung) 311
Adsorption
The effect of $LiClO_4$ concentration on the adsorption behaviour of thiourea at the mercury–ethanolic solution interface (Skompska) 331
Alkaline media
Studies on the electrocatalytic properties of some austenitic stainless steels for oxygen evolution in an alkaline medium (Tiwari et al.) 263
Amino acids
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Anion Radical
Electrochemical properties of benzophenone imine and the use of the corresponding anion radical as a strong electrogenerated base (Zhan, Hawley) 275
Anodic oxidation
Anodic oxidation of small organic molecules on silver modified glassy carbon electrodes (Ragoisha et al.) 373
Austenitic structure
Studies on the electrocatalytic properties of some austenitic stainless steels for oxygen evolution in an alkaline medium (Tiwari et al.) 263

Base
Electrochemical properties of benzophenone imine and the use of the corresponding anion radical as a strong electrogenerated base (Zhan, Hawley) 275
Benzodiazepine
Chronocoulometric studies of irreversibly reduced adsorbates (Ribes, Osteryoung) 311
Benzophenone
Electrochemical properties of benzophenone imine and the use of the corresponding anion radical as a strong electrogenerated base (Zhan, Hawley) 275
Bipyridine
Electrochemical characterization of [Ru^{II}-(bpy)$(CO)_2Cl_2$] (bpy = 2,2′-bipyridine). Isolation of a new complex: [Ru^{II}(bpy)$(CO)Cl_2$][Me_4N] (Collomb-Dunand-Sauthier et al.) 347
Boron
Electrochemical reduction of carbon dioxide on titanium diboride (Nakabayashi, Kira) 381

Calcium
Transport of calcium species in PVC+NPOE membranes (Armstrong et al.) 137
Carbohydrates
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Carbon dioxide
Electrochemical reduction of carbon dioxide on titanium diboride (Nakabayashi, Kira) 381
Carbon fibre microelectrodes
Fast cyclic voltammetry. Evidence for differential adsorption of 3,4-dihydroxyphenylacetic acid (DOPAC) at planar and transverse surfaces of carbon fibre microelectrodes (Hafizi, Stamford) 303

Carotene
Electrooxidation of β-carotene in chlorinated solvents The formation of an electroactive film on gold electrodes (Otero et al.) 415
Catalysis
Synthesis and electrocatalytic properties of a *cis*-diaquoruthenium(II) complex with 6,6′-dichloro-2,2′-bipyridine (Wong et al.) 207
Studies on the electrocatalytic properties of some austenitic stainless steels for oxygen evolution in an alkaline medium (Tiwari et al.) 263
Chlorate ions
The effect of $LiClO_4$ concentration on the adsorption behaviour of thiourea at the mercury–ethanolic solution interface (Skompska) 331
Chlorobenzene
Ion transfer across the water–*o*-dichlorobenzene interface (Hundhammer et al.) 125
Chronoamperometry
Theory of square-wave stripping voltammetry and chronoamperometry of immobilized reactants (Lovrić et al.) 1
Chronocoulometry
Chronocoulometric studies of irreversibly reduced adsorbates (Ribes, Osteryoung) 311
Clay-modified electrodes
Diffusion layer in well-ordered clay-modified electrodes (Fitch, Du) 409
Coated electrodes
Quartz crystal microbalance response of polymer films with uneven thickness coated on electrodes (Bácskai et al.) 55
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243
Cobalt
Kinetics of oxidation and reduction of amorphous Ni + Co alloys (Lian, Birss) 227
Conducting substrate
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243
Conductive polymers
Characterisation of conductive, electroactive polymers using resistometry (John et al.) 365
Copper macrocycles
Binding and surface coordination chemistry of copper^{II} macrocycles at Nafion-modified glassy carbon electrodes (Basak et al.) 111
Cyclic voltammetry
Cyclic voltammetric study of the nitro radical anion from nitrendipine generated electrochemically (Squella et al.) 177
Electrochemical and spectroscopic study of cytochrome *c* immobilized in polypyrrole films (Caselli et al.) 361
Electrochemical preparation and characterization of zinc porphyrin-coated electrodes (Ramachandraiah et al.) 395
Diffusion layer in well-ordered clay-modified electrodes (Fitch, Du) 409
Cytochrome *c*
Re-evaluation of 2,2-bipyridine and pyrazine as promoters for direct electron transfer between cytochrome *c* and metal electrodes (Zhou et al.) 71
Electrochemical and spectroscopic study of cytochrome *c* immobilized in polypyrrole films (Caselli et al.) 361

Dark redox reactions
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243
Deuterium
Elevated-temperature excess heat production in a Pd + D system (Liaw et al.) 161
Dichloro-2,2′-bipyridine
Synthesis and electrocatalytic properties of a *cis*-diaquoruthenium(II) complex with 6,6′-dichloro-2,2′-bipyridine (Wong et al.) 207
Diffusion layer
Diffusion layer in well-ordered clay-modified electrodes (Fitch, Du) 409
Dihydroxyphenylacetic acid
Fast cyclic voltammetry. Evidence for differential adsorption of 3,4-dihydroxyphenylacetic acid (DOPAC) at planar and trans-

verse surfaces of carbon fibre microelectrodes (Hafizi, Stamford) 303
Doping
A thermodynamic approach to the interpretation of anodic and cathodic doping of poly(3-methylthiophene) (Visy et al.) 85
Drop weight
Study of supporting electrolyte adsorption in the water/nitrobenzene partition system. I. A new drop weight technique for interfacial tension measurements (Wawrzyńczak et al.) 291

Eastman-AQ
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Electroactive films
Kinetics of oxidation and reduction of amorphous Ni + Co alloys (Lian, Birss) 227
Electrooxidation of β-carotene in chlorinated solvents The formation of an electroactive film on gold electrodes (Otero et al.) 415
Electrodispersed gold electrodes
Fractal characterisation of electrodispersed gold electrodes (Ocon et al.) 101
Electroluminescence
Electroluminescent properties of polycrystalline zinc oxide electrodes doped with Er^{3+} ions (Kouyate et al.) 145
Electron transfer
Re-evaluation of 2,2-bipyridine and pyrazine as promoters for direct electron transfer between cytochrome *c* and metal electrodes (Zhou et al.) 71
Erbium
Electroluminescent properties of polycrystalline zinc oxide electrodes doped with Er^{3+} ions (Kouyate et al.) 145
Excess enthalpy
Elevated-temperature excess heat production in a Pd + D system (Liaw et al.) 161

Fast cyclic voltammetry
Fast cyclic voltammetry. Evidence for differential adsorption of 3,4-dihydroxyphenylacetic acid (DOPAC) at planar and transverse surfaces of carbon fibre microelectrodes (Hafizi, Stamford) 303
Films
Quartz crystal microbalance response of polymer films with uneven thickness coated on electrodes (Bácskai et al.) 55
Electrochemical and spectroscopic study of cytochrome *c* immobilized in polypyrrole films (Caselli et al.) 361
Flavins
Regulation of an electron transfer reaction of a flavin incorporated into synthetic lipid films on electrodes based on phase transition of molecular bilayers (Nakashima et al.) 355
Flow injection analysis
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Fractal characterisation
Fractal characterisation of electrodispersed gold electrodes (Ocon et al.) 101

Glassy carbon electrodes
Anodic oxidation of small organic molecules on silver modified glassy carbon electrodes (Ragoisha et al.) 373
Glucose dehydrogenase
Glucose sensitivity of poly(pyrrole) films containing immobilized glucose dehydrogenase, nicotinamide adenine dinucleotide, and β-naphthoquinonesulphonate ions (Kajiya et al.) 185
Gold electrodes
Electrooxidation of β-carotene in chlorinated solvents The formation of an electroactive film on gold electrodes (Otero et al.) 415

Helium
Analysis for light atoms produced in the bulk phase of a tubular palladium/silver alloy cathode working electrode (Zywocinski et al.) 195
Hexacyanoferrates
Modified electrodes with mixed metal hexacyanoferrates (Bharathi et al.) 341

Imines
Electrochemical properties of benzophenone imine and the use of the corresponding anion radical as a strong electrogenerated base (Zhan, Hawley) 275

Immobilized reactants
Theory of square-wave stripping voltammetry and chronoamperometry of immobilized reactants (Lovrić et al.) 1
Interfaces
Some interrelationships of inhomogeneous theories in the weak coupling limit pertinent to describing electrical interactions at interfaces (Smith, Koval) 19
Interfacial tension
Study of supporting electrolyte adsorption in the water/nitrobenzene partition system. I. A new drop weight technique for interfacial tension measurements (Wawrzyńczak et al.) 291
Iodine
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243
Iodine-coated electrodes
Site selection in electrode reactions: quinone/hydroquinone redox at submonolayer iodine-coated electrode surfaces (Michelhaugh et al.) 387
Ion transfer
Ion transfer across the water–*o*-dichlorobenzene interface (Hundhammer et al.) 125

Lipid films
Regulation of an electron transfer reaction of a flavin incorporated into synthetic lipid films on electrodes based on phase transition of molecular bilayers (Nakashima et al.) 355
Lithium
The effect of $LiClO_4$ concentration on the adsorption behaviour of thiourea at the mercury–ethanolic solution interface (Skompska) 331

Membranes
Transport of calcium species in PVC+NPOE membranes (Armstrong et al.) 137
Mercury
The effect of $LiClO_4$ concentration on the adsorption behaviour of thiourea at the mercury–ethanolic solution interface (Skompska) 331
Metal electrodes
Re-evaluation of 2,2-bipyridine and pyrazine as promoters for direct electron transfer between cytochrome *c* and metal electrodes (Zhou et al.) 71
Metalloporphyrins
Electrochemical preparation and characterization of zinc porphyrin-coated electrodes (Ramachandraiah et al.) 395
Microbalance
Quartz crystal microbalance response of polymer films with uneven thickness coated on electrodes (Bácskai et al.) 55
Midazolam
Chronocoulometric studies of irreversibly reduced adsorbates (Ribes, Osteryoung) 311
Modified electrodes
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Modified electrodes with mixed metal hexacyanoferrates (Bharathi et al.) 341
Regulation of an electron transfer reaction of a flavin incorporated into synthetic lipid films on electrodes based on phase transition of molecular bilayers (Nakashima et al.) 355
Anodic oxidation of small organic molecules on silver modified glassy carbon electrodes (Ragoisha et al.) 373
Electrochemical reduction of carbon dioxide on titanium diboride (Nakabayashi, Kira) 381
Site selection in electrode reactions: quinone/hydroquinone redox at submonolayer iodine-coated electrode surfaces (Michelhaugh et al.) 387
Electrochemical preparation and characterization of zinc porphyrin-coated electrodes (Ramachandraiah et al.) 395
Modified electrodes thiocyanates
Potential averaged surface-enhanced Raman spectroscopic SCN^- adsorbed at Ag electrodes (Tian et al.) 403
Molecular bilayers
Regulation of an electron transfer reaction of a flavin incorporated into synthetic lipid films on electrodes based on phase transition of molecular bilayers (Nakashima et al.) 355

Nafion-modified electrodes
Binding and surface coordination chemistry of copper macrocycles at Nafion-modified glassy carbon electrodes (Basak et al.) 111
Naphthoquinonesulphonate
Glucose sensitivity of poly(pyrrole) films containing immobilized glucose dehydrogenase, nicotinamide adenine dinucleotide, and β-naphthoquinonesulphonate ions (Kajiya et al.) 185
Nickel
Eastman-AQ/Ni^{II} modified electrode characterization and application in flow injection determination of carbohydrates and amino acids (Wang, Liu) 217
Kinetics of oxidation and reduction of amorphous Ni + Co alloys (Lian, Birss) 227
Nicotinamide adenine dinucleotide
Glucose sensitivity of poly(pyrrole) films containing immobilized glucose dehydrogenase, nicotinamide adenine dinucleotide, and β-naphthoquinonesulphonate ions (Kajiya et al.) 185
Nitrendipine
Cyclic voltammetric study of the nitro radical anion from nitrendipine generated electrochemically (Squella et al.) 177
Nitrobenzene
Study of supporting electrolyte adsorption in the water/nitrobenzene partition system. I. A new drop weight technique for interfacial tension measurements (Wawrzyńczak et al.) 291
NPOE
Transport of calcium species in PVC + NPOE membranes (Armstrong et al.) 137

Organic molecules
Anodic oxidation of small organic molecules on silver modified glassy carbon electrodes (Ragoisha et al.) 373
Oxygen
Studies on the electrocatalytic properties of some austenitic stainless steels for oxygen evolution in an alkaline medium (Tiwari et al.) 263

Palladium
Elevated-temperature excess heat production in a Pd + D system (Liaw et al.) 161
Analysis for light atoms produced in the bulk phase of a tubular palladium/silver alloy cathode working electrode (Zywocinski et al.) 195
Platinum
Diffusion layer in well-ordered clay-modified electrodes (Fitch, Du) 409
Polymer films
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243
Polymerization
Electrochemical preparation and characterization of zinc porphyrin-coated electrodes (Ramachandraiah et al.) 395
Polymers
Characterisation of conductive, electroactive polymers using resistometry (John et al.) 365
Poly(3-methylthiophene)
A thermodynamic approach to the interpretation of anodic and cathodic doping of poly(3-methylthiophene) (Visy et al.) 85
Polypyrrole
Electrochemical and spectroscopic study of cytochrome *c* immobilized in polypyrrole films (Caselli et al.) 361
Poly(pyrrole) films
Glucose sensitivity of poly(pyrrole) films containing immobilized glucose dehydrogenase, nicotinamide adenine dinucleotide, and β-naphthoquinonesulphonate ions (Kajiya et al.) 185
PVC
Transport of calcium species in PVC + NPOE membranes (Armstrong et al.) 137
Pyrazine
Re-evaluation of 2,2-bipyridine and pyrazine as promoters for direct electron transfer between cytochrome *c* and metal electrodes (Zhou et al.) 71
Pyridine
Re-evaluation of 2,2-bipyridine and pyrazine as promoters for direct electron transfer between cytochrome *c* and metal electrodes (Zhou et al.) 71
Synthesis and electrocatalytic properties of a *cis*-diaquoruthenium(II) complex with 6,6′-dichloro-2,2′-bipyridine (Wong et al.) 207
Electrochemical characterization of [Ru^{II}(bpy)$(CO)_2Cl_2$] (bpy = 2,2′-bipyridine). Iso-

lation of a new complex: [Ru^{II}(bpy)-(CO)Cl_2][Me_4N] (Collomb-Dunand-Sauthier et al.) 347

Pyrroles
Electrochemical and spectroscopic study of cytochrome *c* immobilized in polypyrrole films (Caselli et al.) 361

Quartz crystal microbalance
Quartz crystal microbalance response of polymer films with uneven thickness coated on electrodes (Bácskai et al.) 55

Quinones
Site selection in electrode reactions: quinone/hydroquinone redox at submonolayer iodine-coated electrode surfaces (Michelhaugh et al.) 387

Radical anions
Cyclic voltammetric study of the nitro radical anion from nitrendipine generated electrochemically (Squella et al.) 177

Raman spectroscopy
Potential averaged surface-enhanced Raman spectroscopic SCN^- adsorbed at Ag electrodes (Tian et al.) 403

Resistometry
Characterisation of conductive, electroactive polymers using resistometry (John et al.) 365

Rough electrode surfaces
Transport to rough electrode surfaces. Part 1. Perturbation solution for two-dimensional steady state diffusion-limited transport to a surface with arbitrary small amplitude features (Louch, Pritzker) 33

Ruthenium
Synthesis and electrocatalytic properties of a *cis*-diaquoruthenium(II) complex with 6,6′-dichloro-2,2′-bipyridine (Wong et al.) 207
Electrochemical characterization of [Ru^{II}-(bpy)$(CO)_2Cl_2$] (bpy = 2,2′-bipyridine). Isolation of a new complex: [Ru^{II}(bpy)-(CO)Cl_2][Me_4N] (Collomb-Dunand-Sauthier et al.) 347

SCN^-
Potential averaged surface-enhanced Raman spectroscopic SCN^- adsorbed at Ag electrodes (Tian et al.) 403

Silver
Analysis for light atoms produced in the bulk phase of a tubular palladium/silver alloy cathode working electrode (Zywocinski et al.) 195
Anodic oxidation of small organic molecules on silver modified glassy carbon electrodes (Ragoisha et al.) 373

Silver electrodes
Potential averaged surface-enhanced Raman spectroscopic SCN^- adsorbed at Ag electrodes (Tian et al.) 403

Square-wave stripping voltammetry
Theory of square-wave stripping voltammetry and chronoamperometry of immobilized reactants (Lovrić et al.) 1

Stainless steel
Studies on the electrocatalytic properties of some austenitic stainless steels for oxygen evolution in an alkaline medium (Tiwari et al.) 263

Submonolayer
Site selection in electrode reactions: quinone/hydroquinone redox at submonolayer iodine-coated electrode surfaces (Michelhaugh et al.) 387

Surface amplitude
Transport to rough electrode surfaces. Part 1. Perturbation solution for two-dimensional steady state diffusion-limited transport to a surface with arbitrary small amplitude features (Louch, Pritzker) 33

TCNQ
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243

Thermodynamics
A thermodynamic approach to the interpretation of anodic and cathodic doping of poly(3-methylthiophene) (Visy et al.) 85

Thiophene
Phenomenological description of dark redox reactions at electrodes coated with conducting polymer films. Part II. Mechanism of tetracyanoquinodimethane and iodine electroreduction at polythiophene (Levi et al.) 243

Thiophenes
A thermodynamic approach to the interpretation of anodic and cathodic doping of poly(3-methylthiophene) (Visy et al.) 85

Thiourea
The effect of $LiClO_4$ concentration on the adsorption behaviour of thiourea at the mercury–ethanolic solution interface (Skompska) 331
Titanium
Electrochemical reduction of carbon dioxide on titanium diboride (Nakabayashi, Kira) 381
Titanium diboride electrode
Electrochemical reduction of carbon dioxide on titanium diboride (Nakabayashi, Kira) 381
Transport
Transport to rough electrode surfaces. Part 1. Perturbation solution for two-dimensional steady state diffusion-limited transport to a surface with arbitrary small amplitude features (Louch, Pritzker) 33
Transport of calcium species in PVC+NPOE membranes (Armstrong et al.) 137
Tritium
Analysis for light atoms produced in the bulk phase of a tubular palladium/silver alloy cathode working electrode (Zywocinski et al.) 195
Tubular cathode
Analysis for light atoms produced in the bulk phase of a tubular palladium/silver alloy cathode working electrode (Zywocinski et al.) 195

Water
Ion transfer across the water–*o*-dichlorobenzene interface (Hundhammer et al.) 125
Weak coupling limit
Some interrelationships of inhomogeneous theories in the weak coupling limit pertinent to describing electrical interactions at interfaces (Smith, Koval) 19
Zinc
Electroluminescent properties of polycrystalline zinc oxide electrodes doped with Er^{3+} ions (Kouyate et al.) 145
Electrochemical preparation and characterization of zinc porphyrin-coated electrodes (Ramachandraiah et al.) 395
